- Azure
- Azure AI Services
- Retrieval-Augmented Generation
- Cloud DevOps Engineering
- Infrastructure Automation
- CI-CD pipeline design
- Terraform
- Power Platform
- Docker & Kubernetes

LANGUAGE

- Italian
- English

ABOUT ME

Solution Architect with a background in Computer Science, specialized in the design and delivery of Cloud and AI solutions for enterprise environments. Proficient in Microsoft Azure and Infrastructure as Code, with hands-on experience in designing scalable, secure cloud architectures.

Worked on projects involving AI interfaces over enterprise data using Retrieval-Augmented Generation (RAG), end-to-end ETL pipelines, and integrations with CRM and core enterprise systems.

Selected technical projects and architecture case studies are available on my personal portfolio website.

EXPERIENCE

Consultant

2025 - Now

Reply S.p.A.

- Design and propose cloud architectures solution for large-scale enterprise clients.
- Contribute to project staffing decisions and budget management, ensuring efficient resource allocation and alignment with project constraints.

Consultant Junior

2023- 2025

Reply S.p.A.

- Built collaboration and communication skills by working within cross-functional teams.
- Developed hands-on experience on Microsoft Azure, working with core cloud services and supporting the implementation of cloud solutions.
